Revolution!

Digital Display System

Chabad Digital™

Chabad Digital – A Revolution for Chabad Community centers

the powerful display system that helps your Chabad House grow.
Turn your screens into meaningful marketing tools that inspire generosity, promote events, and keep your community connected. Many Shluchim already share how it's simplified their communication and increased donations — all with one easy-to-manage platform.

Chabad Digital is an innovative display solution that keeps your community informed with just the press of a button.

With Chabad Digital, you can easily share: announcements, donations, minyan schedules, Torah classes, Yahrtzeits, Events, community updates, and much more.

Simple. Fast. Practical. Those are the words that define Chabad Digital.
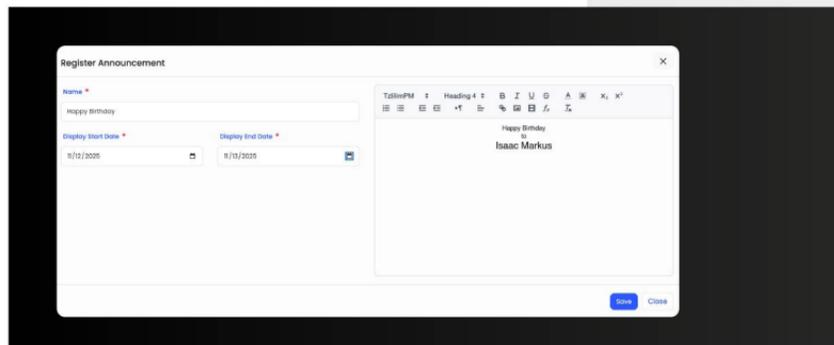

It provides a beautiful, user-friendly platform that is both powerful and easy to use.

Take a closer look and see how Chabad Digital can make the daily operations of your Beis Chabad smoother and more efficient—joining the many satisfied users who already rely on it every day.

Announcements

The Announcements feature lets you create and schedule messages with ease. You can set exactly when your announcement should appear and when it should disappear, whether that's immediately or at a specific time in the future, even years ahead. The flexibility makes it ideal for everything from event reminders to special messages.

You can also customize the appearance of your announcements, choose the font, size, and color to match your style or branding. Adjust the duration for how long the message stays on screen, anywhere from a few seconds to a longer display. It's all managed through an easy-to-use interface, so you can quickly edit or delete announcements as needed.

The Donations feature streamlines the way you display donation information. Create a template with placeholders for things like the donor's name, the purpose of the donation, and any other important details. Once set, you can easily enter donations, and the system will automatically manage when they're displayed.

For example, donations can be shown for a specific amount of time—like 5 seconds—making it easy to highlight contributions. Whether it's for a kiddish, community sponsor, or another cause, this feature keeps everything organized and professional without any hassle.

just select your template, and enter the details

Chabad Digital Chabad Digital makes it easy and meaningful to keep the memory of loved ones alive through the Yahrzeit feature — a heartfelt digital tribute that brings together family, community, and mitzvah in one powerful experience.

With just a few clicks, you can create a personalized Yahrzeit: upload the person's name in both English and Hebrew, add their date of passing, a meaningful photo, and a short message or life story that captures their legacy.

Once set up, the system takes care of everything automatically. Each year, starting days before and continuing days after the Yahrzeit, the tribute appears beautifully across your Chabad Digital screens and dashboard. It becomes a visible reminder to the community — gently encouraging everyone who sees it to pause, reflect, and honor the person's memory.

Family members and friends receive a personalized email notification with the loved one's details and a direct link to the upcoming Yahrzeit page. There, they can easily dedicate a donation in memory of the neshama, sponsor a Kiddush, support an event, or give to a meaningful Chabad project connected to their loved one's values.

This simple, automated system transforms what might have been a forgotten date into a yearly moment of inspiration and generosity. Each Yahrzeit not only strengthens family bonds but also deepens the connection between families and their local Chabad center.

When people see their loved one's memory beautifully displayed, they feel moved to honor them through giving — helping Chabad continue its vital work of spreading Torah, mitzvos, and light in the community.

"

The Yahrzeit feature doesn't just remember the past — it creates ongoing impact, turning memory into mitzvah and legacy into lasting blessing.

Keep your Chabad House fresh, current, and inspiring — every day.

The Recent Photos feature allows you to easily upload images and display them in a dynamic scrolling format. After uploading your photos, the system automatically creates a slideshow that updates in real time. This feature is perfect for showcasing recent events, community highlights, or special moments.

The setup is quick and simple—just upload the images and select how long each should appear. The automatic scrolling ensures your photos are always on display without needing constant updates.

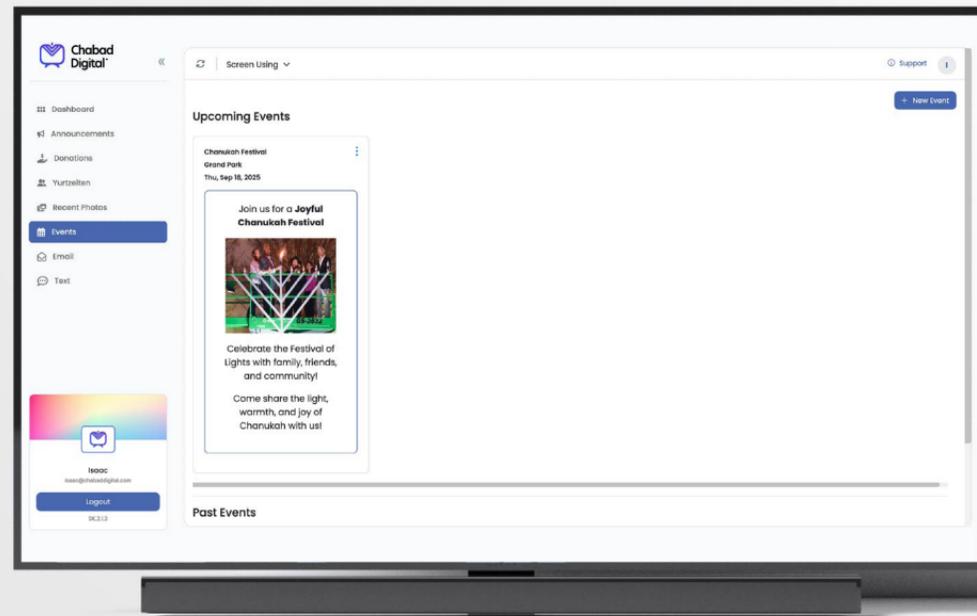

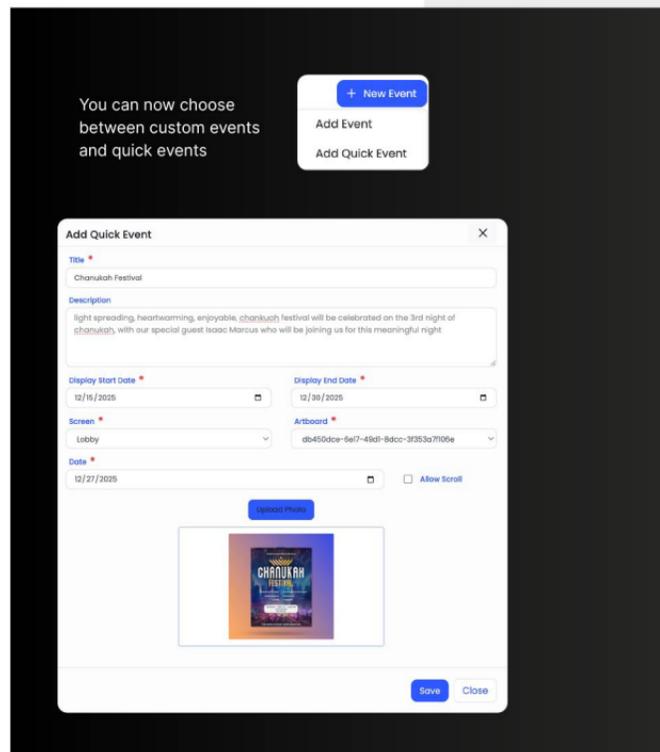

Your gallary without hassle

With the Events feature, managing and promoting upcoming programs has never been easier. Whether you're announcing a farbrengen, a children's activity, a special Shabbos dinner, or a community gathering — everything can be displayed beautifully on your Chabad Digital screens in just moments.

There are now two easy ways to share events:

Quick Events – Designed for speed and simplicity. Just upload your event poster, enter the title and date, and Chabad Digital does the rest. The system automatically formats the design to fit your screens and displays it at the right times. It's the perfect option for quick updates, small events, or last-minute reminders.

Full Event Setup – For those who want full control. Customize your event layout, adjust images, text, descriptions, and exact timing. Choose how many days before and after the event it should display, ensuring maximum visibility and impact.

אירועים

With flexible display options and cloud-based access, you can create and manage events from anywhere — even on the go. Every detail is designed to save time while helping you keep your community informed and connected.

Whether it's a small weekly shiur or a large holiday program, the Events feature ensures your message reaches everyone clearly, beautifully, and on time.

Cloud-Based & User-Friendly

Chabad Digital is fully cloud-based, meaning you can access and manage everything from anywhere, anytime. Whether you're handling announcements, events, or donations, the cloud ensures your data is secure, always up-to-date, and accessible in real-time.

A standout feature of Chabad Digital is the ability to share your live screen simply by providing a link. This makes it incredibly easy to keep your audience engaged, whether you're sharing event updates, community photos, or important announcements.

You can also embed or **link your live display directly on your website**, allowing visitors to see your latest updates in real time. It's a simple yet powerful way to keep your community connected — both inside your Chabad House and online.
